Talk to your personal physician about challenges you or your caregiver are encountering. Ask if a referral to an occupational, physical or speech therapist is an option.

At-home rehabilitation services

Our in-home therapy team may be the right fit for you if you have difficulty:

- Walking
- Bathing or showering
- Getting dressed
- Preparing meals
- Getting up out of chairs
- Eating or swallowing
- Taking medications
- Speaking
- Enjoying hobbies
- Safely leaving the home

Or struggle with:

- Weakness
- Dizziness
- Swelling

Our team will individualize your care to meet your specific needs. Typical in-home sessions are one hour, one-on-one with an occupational, physical or speech therapist.

Benefits of at-home rehabilitation

- Therapists can evaluate your needs in your own home
- More time efficient for you
- Privacy for you and your family
- Eliminates the complications of driving

Call today for an assessment

The therapists at Lakeview Homecare will work with you and your caregivers to tailor a program that meets your specific needs. Call us at **651-430-3320** and tell us about your situation. We will help you determine your best options.
